SPX Robinair Cool Tech **High Performance Vacuum Pump**

- Ideal for larger system evacuation
It combines Robinair's proven offset rotary vane design with features that make the pump easy to use.
- Rated at a full 10 cfm to help you reach deep vacuum conditions more quickly, saving time and ensuring adequate moisture removal.
- One-piece Sure-Grip molded handle houses the on-off switch, protecting it from accidental knocks.
- Powerful 1/2 hp motor features a high torque design for easier starting and built-in motor overload protection
Integral check valve prevents pump oil from being sucked into the system if power is lost.
- Offset rotary vane design creates the deep vacuum conditions needed for thorough evacuation.
- Large sight glass makes it easy to check vacuum pump oil levels.
- Gas ballast helps keep pump oil clean for more efficient operation.
- Iso-Valve isolates the pump from the system after evacuation, making it simple to check for rate of rise.
- Oil fill port is easy to reach from either side, and the oil drain is located at the bottom of the reservoir and angled downward for complete draining.
- External exhaust allows vapors to be captured or piped away.
