

Sherlock Leak Detection System

Sherlock fluids comprise more than 70% of all chemical type leak detectors used throughout the United States and Canada. Sherlock is ideal for use on gas connections, air lines, tanks, cylinders, refrigeration condensers, evaporators, and any other system or product that can be leak tested with air or gas.

- Pinpoints large and small leaks far better than any soap solution.
- Ready mixed for easy use
- Approved by Airforce and Navy Bureau Aeronautics
- Save money, time, and trouble
